SHOE SOME LOVE

for your neighbor

The simple act of walking from your kitchen for a meal or to your bedroom to rest, probably does not require a significant number of steps. You are easily able to navigate from room to room to address your basic needs without concern of how far you will have to walk.

For someone experiencing homelessness, simple tasks of getting something to eat, finding a place to use the restroom or a safe place to rest, can result in 1,000s of steps taken throughout the day. Having to take those steps in shoes that provide little to no support for your feet and not having the option to replace your well-worn shoes, provides both physical and mental burdens for our neighbors. Through our "Shoe some love for your neighbor" drive, we hope to provide our neighbors with quality shoes as we enter the warmer months.
